

# Faux Linen Simple Couch Protector

## Using Your Simple Couch Protector & Washing Instructions

Thank you for purchasing the Simple Couch Protector. Your four legged best friend will enjoy sleeping on the couch, and your couch will remain clean and protected for years to come. The couch protector is fast and easy to put on, and take off.

### Step 1:

Remove the protector from the plastic bag. Drape the couch protector over your couch. Center the protector on your couch so the protector covers the front of the couch and is evenly centered to covers the sides.

### Step 2:

Tuck the protector in between the couch and the cushions by the couch arms and the back cushions. How much you tuck the protector into your couch will depend a lot on your dog. Some dogs move around a lot on the couch. Others just prefer to sleep or watch the world go by. For more active dogs you will need to tuck enough fabric in between the couch and cushions to ensure the protector stays in place. Make sure the front and sides of your couch are covered and protected.

### Step 3:

Smooth out any creases and ripples. Tuck any excess fabric in between the cushions and couch.

### Step 4:

This is the most important step - enjoy your four legged best friend sleeping comfortably on your couch (or is it 'their' couch?) knowing your couch will be protected.

### Washing Instructions:

Your Couch Protector is fast and easy to clean. Wash and dry separately from other items. Wash the Couch Protector with cold water on a gentle setting using a mild laundry detergent, such as Woolite. Tumble machine dry on a cool to warm setting. You may consider using a commercial grade front load washer and dryer. Do not use bleach, and do not dry clean as these will damage the upholstery grade fabric. In the event of a pet 'accident' remove the Protector immediately from the couch. We recommend using an enzyme based urine treatment directly on the accident. Follow the directions on the urine treatment product.
