

# The Gentle Giant Dog Bed

## Putting Together Your New Bed & Washing Instructions

Thank you for purchasing the Gentle Giant Bed. Your four legged best friend will find the bed very comfortable. With proper care, your bed will look great and be comfortable for years to come. The bed is fast and easy to put together.

### Step 1 – Putting the Bed Together:

The bed cover is packed separately from the stuffed pillows in the box.

Ensure that you have received: i) one bed cover; ii) four stuffed pillows.

### Step 2:

Remove the four stuffed bolster pillows from the box. The pillows use high quality bonded polyester mats. Some parts of the mats may be compressed in packaging. The compressed area will rise over time. The pillows can be placed in the bed cover and allowed to rise in the bed.

### Step 3:

Unfold the bed cover. Find and open the two zippers on the sides of the bed cover. There are four separate compartments in the bed. Work the pillows into each bed compartment. Make sure the pillow goes all the way to the end of the compartment.

Slowly close the zipper as you work the pillows into the compartments. Be sure to close the zippers slowly. You may need to use both hands to close the zippers. Having someone else's help is even better. Have your helper hold the two sides of the zipper together as you gently close the zippers.

# The Gentle Giant Dog Bed

## Step 4:

Place your bed where you want it in your home. Most dogs like to be as close as possible to where you are. Call your four legged best friend to test out their new bed.

Some dogs will jump right into their new bed and make it theirs. Other dogs may take some time before they are comfortable with it being in your home. Finally, watch your dog enjoy their new Bed!

### FLAMMABILITY WARNING

**Do not expose this product to open flames or any other direct source of indirect high temperature ignition sources, such as burning fire places, burning cigarettes, space heaters, or naked lights. Once ignited, polyester fiber will burn rapidly, releasing great heat and consuming oxygen at a high rate. In an enclosed space, the resulting lack of oxygen will present a danger of suffocation to the occupants.**

**Hazardous gases released by the burning fiber can be incapacitating, or fatal, to human beings and pets if inhaled in sufficient quantities.**

**This warning applies to polyester fibers in general and they should not be construed that this bed is any more hazardous than those of other polyester fibers, or beds. All polyester fiber is dangerous if ignited.**

## Washing Instructions:

Your Gentle Giant Bed is fast and easy to wash and dry. The bed has a zippered cover that must be removed before washing and drying.

**The bed's liners, pillows and fill should not be washed.**

Wash and dry the bed cover separately from other items.

Machine wash the cover with cold water on a gentle setting using a mild laundry detergent, such as Woolite®.

Tumble machine dry on a cool to warm setting. Do not use bleach, and do not dry clean as these will damage the upholstery grade fabrics.

In the event of a pet 'accident' on the bed we recommend using an enzyme based urine treatment directly on the accident. Follow the enzyme treatment instructions. For most treatments, allow the enzyme to dry completely before machine washing and drying the bed. Should urine odors persist you can reapply the treatment and/or contact the enzyme manufacturer for further recommendations.

**If you had a great experience with your new bed please tell your friends. If you didn't, please tell us at:
