

# Microfiber Half Bolster Bed

## PUTTING TOGETHER YOUR MICROFIBER HALF BOLSTER BED & WASHING INSTRUCTIONS

Thank you for purchasing the Microfiber Half Bolster Bed. Your four legged best friend will find the bed cozy and very comfortable. With proper care, your bed will provide years of happy use. The bed is fast and easy to put together.

### Step 1 – The pieces:

Ensure that you have received: i) one bed cover, ii) a liner for the base, iii) four stuffed pillows for the base, and iv) stuffed pillow for the bolster.

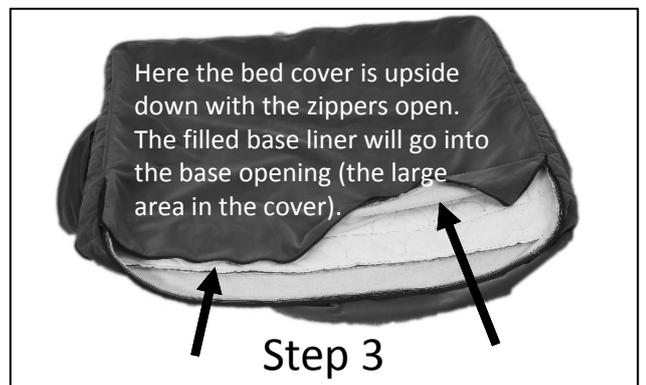

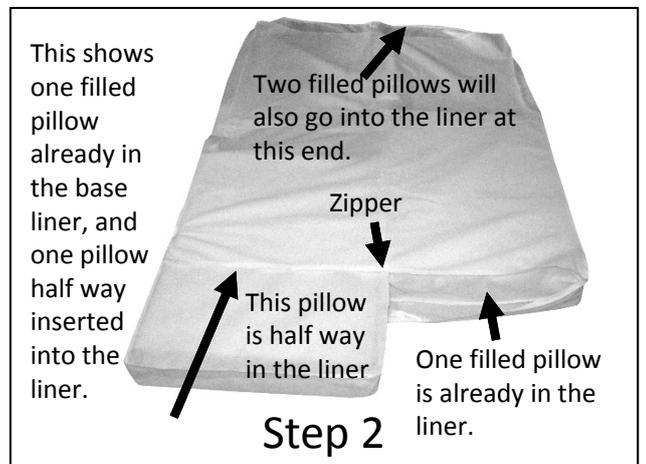

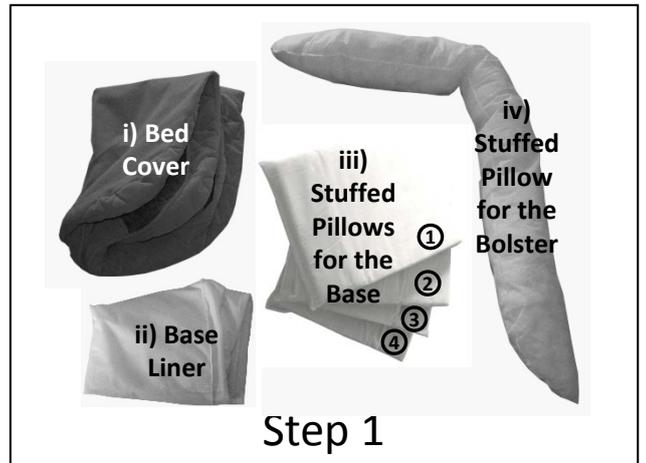

### Step 2 – The base:

The four stuffed pillows for the base need to go into the base liner. Open the zippers (there are two) on the base liner (the base liner is white and has no fill in it). One at a time, take the stuffed pillows for the base and push them into the base liner. (The base liner makes sure the pillows do not move around once they are in the base of the bed.) Once the stuffed pillows are in the base liner gently close the zippers on the liner.

### Step 3 – The liner in the base:

Next, put the filled base liner into the base of the cover. It's easier to put the filled base liner into the cover if the bed is upside down. Turn the bed cover upside down (with the fleece side facing down). Open the zippers on the bed cover. There are two zippers – one for the base and one for the bolster. The base is the big part that the dog will sleep on. Push the filled base liner into the base of the bed. Gently close the zipper – watch that the liner doesn't get caught in the zipper.

Continued on the reverse side...

# Microfiber Half Bolster Bed

## Step 4 – The bolster:

Take the long thin filled pillow for the bolster and work the pillow into the bed cover opening for the bolster. Make sure you push the filled pillow right to the end of the bolster opening. Gently close the bolster zipper on the cover.

## Step 4 – The best part:

Place your bed where you want it in your home. It should be out of well traveled areas. Most dogs like to be as close to you as possible.

Call your four legged best friend to try their new bed.

Some dogs will jump right into their new bed and make it theirs. Other dogs may take some time before they are comfortable with the bed being in their home.

Finally, watch your dog enjoy their new bed!

### FLAMMABILITY WARNING

**Do not expose this product to open flames or any other direct source of indirect high temperature ignition sources, such as burning fire places, burning cigarettes, space heaters, or naked lights. Once ignited, polyester fiber will burn rapidly, releasing great heat and consuming oxygen at a high rate. In an enclosed space, the resulting lack of oxygen will present a danger of suffocation to the occupants. Hazardous gases released by the burning fiber can be incapacitating, or fatal, to human beings and pets if inhaled in sufficient quantities.**

This warning applies to Polyester Fibers in general and they should not be construed that this bed is any more hazardous than those of other polyester fibers, or beds. All polyester fiber is dangerous if ignited.

## Washing Instructions:

Your Half Bolster Bed is fast and easy to clean. The bed has a zippered cover that must be removed before washing and drying.

**DO NOT WASH THE FILLED PILLOWS OR THE COVERS FOR THE FILLED PILLOWS.**

Wash and dry the bed cover separately from other items.

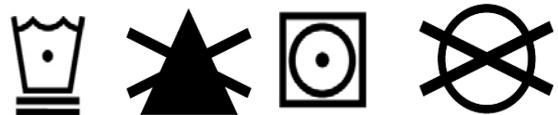

Machine wash the cover with cold water on a gentle setting using a mild laundry detergent, such as Woolite®.

Tumble machine dry on a cool to warm setting.

Do not use bleach, and do not dry clean as these will damage the upholstery grade fabrics.

The bed's liners, pillows and polyester fiber fill should not be washed.

In the event of a pet 'accident' on the bed we recommend using an enzyme based urine treatment directly on the accident. Follow the enzyme treatment instructions. For most treatments, allow the enzyme to dry completely before machine washing and drying the bed. Should urine odors persist you can reapply the treatment and/or contact the enzyme manufacturer for further recommendations.

**If you had a great experience with your new bed please tell your friends. If you didn't, please tell us at: [info@floppyearsdesign.com](mailto:info@floppyearsdesign.com).**
