

# Simple Sectional Sofa Protector

## Using Your Simple Sectional Sofa Protector & Washing Instructions

Thank you for purchasing the Simple Sectional Sofa Protector. Your four legged best friend will enjoy sleeping on your sectional sofa, and your sectional will remain clean and protected for years to come. The protector is fast and easy to put on, and take off.

### Step 1:

Remove the protector from the plastic bag. Open the protector and locate the narrower end (the width). Since the protector is long, we suggest starting to drape the protector over one end of the sofa – and then working the protector along the rest of the sofa.

### Step 2:

Hold the protector in the front of the sofa, and then spread the protector along the seating area. Tuck the protector in between the cushions - by the arms and the back cushions.

How much, and where, you tuck the protector into your sofa will depend a lot on your dog. Some dogs move around a lot on the couch. Others just prefer to sleep or watch the world go by. For more active dogs you will need to tuck enough fabric in between the sectional and cushions to ensure the protector stays in place.

Make sure the front, sides and back of your sofa are covered and protected as much as possible.

### Step 3:

Smooth out all the creases and ripples. Tuck any excess fabric in between the cushions and couch.

### Step 4:

This is the most important step - enjoy your four legged best friend sleeping comfortably on your couch (or is it 'their' couch?) knowing your couch will be protected.

### Washing Instructions:

Your sofa protector is fast and easy to clean. Wash and dry separately from other items. Wash the protector with cold water on a gentle setting using a mild laundry detergent, (such as Woolite). Tumble machine dry on a cool to low heat setting. You may consider using a commercial grade front load washer and dryer. Do not use bleach, and do not dry clean as these will damage the upholstery grade fabric.

In the event of a pet 'accident' remove the protector immediately from the couch. We recommend using an enzyme based urine treatment directly on the accident. Follow the directions on the urine treatment product.

If you had a great experience with your new Simple Sectional Sofa Protector please tell your friends. If you didn't, please tell us at: [info@floppyearsdesign.com](mailto:info@floppyearsdesign.com).
